Introduction

This document details the information carried in the Briscoes iDOC format Purchase Order Change messages that are sent to vendors.

It is essential that all suppliers be tested for both Order Units of Measure Eaches and Cartons regardless of whether Briscoe Group currently purchase in carton quantities. It is vital and necessary that this EDI Message type is included in our testing as in the future we may change to buying in carton quantities from you.

If a Supplier currently only uses eaches we will be adding cartons so we can test this scenario. You will be advised of these prior to commencing Test Packs with EDISTech.

This Message Implementation Guide includes:

- A worked example of a Briscoes purchase order change for a vendor
- Full documentation for each of the iDOC segments that are used in this order change message.
- The matching iDOC format purchase order change message used in this documentation.

Distributing this document

The document contains information that is to be considered commercially sensitive to Briscoes Group, Rebel Sports and EDISTech Limited. This document may not be distributed to anyone else outside of the immediate project team without permission being granted by Briscoe Group Limited.

Document revision history

1 st February 2011	BRD	Original version created from base EDIS and GS1 documentation standards.
8th February 2011	BRD	First version distributed to Briscoes for comment.
8 th February 2012	BRD	Updated after feedback from Briscoes
5 th March 2012	BRD	First version distributed to vendors for comment
2 nd October 2013	CDP	Carton (CT) Unit of Measure introduced.
14 June 2014	CDP	Updated notes on the following fields: <DOCREL> <RECIPNT_NO> <BMNG2> <PMENE> <PEINH>

Further reading

This Message Implementation Guide should be read in conjunction with the following Briscoes and Rebel Sports publications:

- *Trading electronically with the Briscoe Group.* This guide outlines the Briscoe e-commerce initiatives including the messages that are sent and how to complete the vendor on-boarding processes with Briscoes.
- *The Briscoes iDOC Purchase Order Message Implementation Guide.* This guide outlines the structure and usage of the Purchase Order messages that Briscoes and Rebel Sport send to their vendors.
- *Examples specific to your company.* The examples in this guide are generic. Briscoes also provides a pack of test orders with your own products in them that you can use during development. Similar orders will be used later during implementation and on-boarding with Briscoes.
- *Matching example Purchase Orders Changes in human-readable format.* For each iDOC-format example, Briscoes and Rebel Sports have provided a matching human-readable copy of each order change message.

About EDISTech Limited

Briscoes has retained EDISTech to manage the on-boarding of our vendors, working alongside the Briscoes and Rebel Sports teams. Once you have decided to link up to our systems, EDISTech will assist you with each step of the implementation and testing.

The EDIS network provides a connection point to allow your computer to exchange documents with Briscoes SAP® order management system. EDISTech also maintains local and international links to other e-commerce companies like themselves, known as *interconnects*. If you are already exchanging documents with other retailers or customers via a Value-Added Network, EDISTech can work alongside your providers to connect you and start the documents flowing. If you do not already have a link to any other network, EDISTech can provide a direct connection to Briscoes via the EDIS network.

The EDIS network also facilitates a range of *interconnects* to other network providers throughout the world including:

- GXS
- SPS Commerce
- B2BE
- Sterling Commerce
- INOVIS

During implementation, EDISTech will assist to connect you to the Briscoes e-commerce system via The EDIS network or your preferred network provider.

Processing Purchase Order Changes

Each Briscoes or Rebel Sports Purchase Order that is created by their SAP/R3 ® system is sent to the EDIS network for distribution to vendors. EDISTech provides a range of different communications options to transfer the orders and other documents between the EDIS network and the vendor's own systems.

The EDIS *Allegro*™ portal for Briscoes and Rebel Sports is also updated so that the changed purchase order information can be used by later processes. Vendors have access to this portal so that they can view data during implementation to ensure that their systems have interpreted the order data correctly.

If the Supplier sends to Briscoe Group a Purchase Order confirmation containing one or more Order Disparities, Briscoe Group will determine if these disparities are accepted. If it is accepted Briscoe Group will make an amendment to the Purchase Order in its EDI system. There will be no notification to Supplier. The Supplier will assume its acceptance per clause 5.5 T.P.A (Refer to T.P.A 5.4 & 5.5)

If Briscoe Group make a change to the Purchase Order after the first confirmation has been received and before the delivery has been sent; Briscoe Group will send a Purchase Order Change. From the time of the Suppliers receipt of the Purchase Order Change the procedures set out in clauses 5.2 and 5.3 will apply in relation to the Purchase Order Change. In this case the supplier will confirm only the changes to the Purchase Order. There is no confirmation required when it is a deletion (Refer 5.10 in TPA)

Changes to Purchase Order 4500038166

Rebel Sports have requested the following changes to this order:

<i>Order Line Number</i>	<i>Change requested</i>
00010	The required delivery date has changed from the 16 th December to 19 th September.
00020	The quantity ordered for Whangarei has been increased from seven to ten items. The item price has changed. Price changes are usually triggered as a result of an order response coming back from a vendor that corrected the price that was incorrect in the original purchase order.
00060	Line has been deleted by Briscoes and should not be supplied.
00090	A new line has been added to the order to be delivered to Whangarei

Note that only the lines that have changed are sent in the message. This means that line 60, which has been deleted, will only appear in this order change message and will not be re-sent in subsequent order change messages.

Example messages

The human-readable PDF for the order change shown on the following pages is available in the file iDOC *Purchase Order Change 4500038166.pdf*

XML Purchase Order Change message segments

The segment specifications below show each of the fields that are used in the ORDERSEXT ORDCHG message.

EDI_DC40 Message Header

The Message Header marks the start of a new order change message. Mandatory

Tag	Description	Min/ Max	Notes
<?xml version="1.0" encoding="uft-8"?>	XML version segment		The XML version segment. Note that the attribute names are case sensitive.
<ORDERSEXT> <IDOC BEGIN=1>	Start of the IDoc ORDERSEXT message		Only one purchase order change is packed into each ORDERSEXT envelope.
<EDI_DC40 SEGMENT="1">	Start of the EDI_DC40 group		Start of the EDI_DC40 group.
<TABNAME>			Always EDI_DC40
<MANDT>			Always 300.
<DOCNUM>	Unique document number		The unique document sequence number. Can be used in conjunction with the <SERIAL> segment to uniquely identify this message.
<DOCREL>	Document release number		Always 702.
<STATUS>	Document status		Always 30 - represents an original document released from SAP
<DIRECT>	Document direction.		Always 1
<OUTMOD>	Output mode.		Always 2
<IDOCTYP>	IDoc message type code	1/10	Always ORDERS05 for Purchase Orders and Purchase Order Change messages.
<CIMTYP>	IDOCS EDI message name	1/10	Always ORDERSEXT for Purchase Orders and Purchase Order Changes.
MESTYPE	Message type code.	3/3	The iDoc message type. Purchase Orders Changes are always message type ORDCHG . Refer to the matching Purchase Order and Order Confirmation documentation for examples of how this segment is used in other messages.

<SNDPOR>	SAP Message Sender port	1/10	Message sender. Messages are routed through this SAP output port.	
			SAPBRT	Briscoes and Rebel Sports test system
			SAPBRP	Briscoes and Rebel Sports production system
<SNDPRT>			Always LS	
<SNDPRN	Message sender code	1/10	Identifies the company that sent the purchase order to the vendor	
			BRTCLNT300	Briscoes and Rebel Sports test system
			BRPCLNP300	Briscoes and Rebel Sports production system
<RCVPOR>	SAP Message Receiving port	1/10	SAP message receiving port code. Always EDIORDCHG	
<RCVPRT>	Receiving partner type	1/10	Always LI	
<RECVPRC>		1/10	Always LF	
<RCVPRN>	Receiving partner code	1/10	Identifies the vendor that the purchase order is being sent to. This is used to route the message via the correct e-commerce network provider to the vendor's system, The same value is also sent in the <RECIPNT_NO> segment.	
<CREDAT>	Message creation date	8/8	Message creation date in the format YYYYMMDD	
<CRETIM>	Message creation time	6/6	Message creation time in the format HHMMSS (24-hour format)	
<SERIAL>	Message Interchange Number	14/14	Unique message interchange control number. This is a timestamp in the format YYYYMMDDHHMMSS. Can be used in conjunction with the <DOCNUM> segment to uniquely identify the message.	
</EDI_DC40">	End of the EDI_DC40 group		End of the EDI_DC40 group	

E1EDK01 General Data

The General Message Data group. This carries currency codes and the primary purchase order number from the original order. Mandatory

Tag	Description	Min/ Max	Notes
<E1EDK01 SEGMENT= "1">	Start of the IDOCS Document header general data.		Start of the IDOCS Document header general data.
<CURCY>	Currency code	3/3	SAP currency code. Always NZD
<HWAER>	Currency code	3/3	Local currency code used in external EDI documents. Always NZD
<WKURS>	Exchange rate	1/12	Exchange rate.
<ZTERM>	Terms of payment key	1/17	Terms of payment key.
<BSART>	Document type	1/4	Document type.
<BELNR>	Document reference	1/35	Briscoes or Rebel Sports original Purchase Order Number. This is the primary order reference number that can be used to match this Purchase Order Change to the original Purchase Order. All subsequent Purchase Order Change messages will also carry this same number.
<RECIPNT_NO>	Vendor number	1/10	This is the unique supplier identification number. Also known as the Vendor Number. The same value is also sent in the <RCVPRN> segment.
</E1EDK01>	End the IDOCS Document header general data.		End the IDOCS Document header general data.

E1EDK14 Organizational data

Each E1EDK14 group carries information about one ship-to, ordered-by or invoice-to trading partner.

Tag	Description	Min/Max	Notes	
<E1EDK14 SEGMENT= "1">			Start of the IDOCS organizational data segment.	
<QUALF>	Qualifier	1/3	Qualifier that identifies the type of organization:	
			014	Purchasing organization.
			009	Purchasing group.
			013	Purchase Order type.
			011	Company code.
<ORGID>	Organizational identifier	1/35	Identification code for the party.	
</E1EDK14>	End of group			

E1EDK03 Document dates

Each E1EDK03 group carries a date that relevant to this purchase order. Where there are different requested delivery dates on different order lines, the required delivery date in the lines section should be used and not this header-level date. Mandatory

Tag	Description	Min/Max	Notes	
<E1EDK03 SEGMENT = "1">	Start of the IDOCS date group			
<IDDAT>	Qualifier	1/3	Date qualifier:	
			012	Purchase Order date. This date does not change in Purchase Order Change messages.
			011	Original or changed requested delivery date.
<DATUM>	Date	8/8	Date in the format YYYYMMDD	
</E1EDK03>	End of group			

E1EDKA1 Document Header Partner Information

Each E1EDKA1 group identifies an individual buyer, ordered-by party and ship-to party. Mandatory

Tag	Description	Min/Max	Notes
<E1EDKA1 SEGMENT = "1">	Start of the IDOCS Document header Partner information.		
<PARVW>	Partner qualifier	1/3	Identifies the role of the party:
		AG	Buyer contact details
		RE	Invoice-to party
		WE	Ordered-by party
		LF	Briscoes or Rebel Sports vendor number.
<PARTN>	Partner number	1/17	Partner identification code or number. Used when <PARVM> contains AG or LF.
<TELF1>	Telephone number	1/25	Telephone number. This is usually the contact phone number of the first contact person of this trading partner or party. Optional. Used when <PARVM> contains AG or WE.
<LIFNR>	Vendor number	1/17	Vendor identification code at the customer location. Used when <PARVM> contains WE.
<NAME1>	Name one	1/35	Free-form partner name. Depending on the qualifier in the <PARVW> segment, this can be the name of the buyer, the suppliers company name or the name of the receiving warehouse or store the goods are to be delivered to.
<BNAME>	Partner name	1/35	Optional IDOC user name. Used when <PARVM> contains AG.
<PAORG>	Organizational code	1/30	Optional IDOC organizational code. Used when <PARVM> contains AG.
<ORGTX>	Organization name	1/50	Free-form name of the partners company or organization. Used in conjunction with the <PAORG> value supplied above. Optional. Used when <PARVM> contains AG.
<PAGRU>	IDOC group code.	1/30	IDOC group code. Optional.
<STRAS>	Street and house number 1	1/35	Street and house number 1. Optional. Used when <PARVM> contains WE.

<STRS2>	Street and house number 2	1/35	Street and house number 2. Optional. Used when <PARVM> contains WE.
<ORT01>	City name	1/35	City Name. Used when <PARVM> contains WE.
<LAND1>	Country name key.	1/3	Country name key. This is usually a standard ISO Country code.
<TELFX>	Fax number	1/25	Fax number. This is usually the contact fax number of the first contact person of this trading partner or party. Optional.
<SPRAS>	Language Key	1/1	Language used in this purchase order. Always 'E' for English for Rebel Sports or Briscoes.
<ORT02>	Suburb name	1/35	Suburb, county or district name.
<SPRAS_ISO>	Language code	1/2	ISO language code that identifies the language used by the receiving or sending party. Always EN for English for Briscoes and Rebel Sports.
</E1EDKA1">	End of the IDOCS Document header Partner information.		End of the IDOCS Document header Partner information.

E1EDK02 Document Header Reference Information

Carries the purchase order number and the order creation date. Mandatory

Tag	Description	Min/ Max	Notes	
<E1EDK02 SEGMENT = "1">	Start of the IDOCs Document header Reference information.			
<QUALF>	Qualifier	1/3	Reference qualifier	
			001	Reference is the Briscoes or Rebel Sports Purchase Order number.
<BELNR>	Reference number.	1/35	Reference number. When the qualifier is 001, this value is the Purchase order number. This is the same number that is used in the <E1EDK01> <BELNR> segment.	
<DATUM>	Order date	8/8	Reference date in the format YYYYMMDD. Where the qualifier is 001, this is the Purchase Order creation date.	
<UZEIT>	Order time	6/6	Reference time in the format HHMMSS. Where the qualifier is 001, this is the Purchase Order creation time.	
</E1EDK02>	End of the E1EDK02 group		End of the E1EDK02 group	

E1EDP01 Purchase Order Line Details

Carries the details of each order line and information about what has changed. There is one E1EDP01 group for each order line. The order lines are carried in a nested group of segments for each line:

<E1EDP01 SEGMENT = "1"> ← document line group
 <ZE1EDP01> ← Article classification.
 <E1EDP20> ← required schedule and delivery date group
 <E1EDP19> ← product identification group – Briscoes or Rebel Sports item code
 <E1EDP19> ← product identification group – The vendor's own item code
 <E1EDP19> ← product identification group - The item barcode or GTIN, assigned by the vendor.
 <E1EDP01>

Where the order is items to be delivered to more than one store, each there will be a separate EDED01 group for each product for each store.

Tag	Description	Min/Max	Notes	
<E1EDP01 SEGMENT = "1">	Start of the IDOCS Document item line group			
<POSEX>	Item number	1/5	Original Purchase Order line number. Formatted with leading zeros. If a line has been added, this line number will not have appeared in the previous order. Line numbers are also not re-used if a line on an order is deleted.	
<ACTION>	Action code	1/3	Identifies the action code for this order line:.	
			001	This is an original line. In a Purchase Order Change, this indicates that a line has been added.
			002	Item changed
			003	Item cancelled or deleted.
<PSTYP>	Item category	1/1	Briscoes or Rebel Sports Item category code.	
<KZABS>	Acknowledgement Flag	1/1	Specifies if an order acknowledgement is required:	
			X	Acknowledgement is required
<MENGE>	Quantity	1/15	Quantity ordered. This is formatted with three decimal places. This will be the total number of items now required if the buyer increases or decreases the requested quantity in SAP.	
<MENEE>	Unit of measure	1/3	Unit of measure code. Usually EA for Each or CT for Carton.	
<BMNG2>	Quantity in order price unit	1/15	Quantity ordered in the order pricing unit. When the Unit of Measure is EA in <MENEE>, then this value will be the same as that of <MENGE>. When the Unit of Measure is CT in <MENEE>, then this value will be the	

			multiple of <MENGE> and <BPUMZ>. This is formatted with three decimal places.
<PMENE>	Price unit of measure code	1/3	This is the Price unit of measure.
<VPREI>	Net price	1/15	Net unit price formatted to two decimal places.
<PEINH>	Price unit of measure.	1/9	Pricing unit of measure code.
<NETWR>	Extend line amount.	1/18	Extended net line amount formatted to two decimal places.
<GEWEI>	Weight Unit of Measure.	1/3	Weight Unit of Measure code. Usually KGM for Kilograms.
<MATKL>	IDOC Article Class code	1/9	Merchandise category code. Also known as the Department, Class, Sub-class or Product Group code.
<BPUMN>	Conversion factor	1/5	Denominator or bottom part of the fraction for the conversion of the Order Pricing Unit <BMNG2> into the Order unit. This has no decimal places and is always positive.
<BPUMZ>	Conversion factor	1/5	Numerator or top part of the fraction for the conversion of the Order Pricing Unit <BMNG2> into the Order unit. This has no decimal places and is always positive.
<WERKS>	Site code	1/4	Briscoes or Rebel Sports receiving site code. This is the Rebel Sports store code that the items are to be delivered to.
<LGORT>	Storage location	1/4	Storage location code.

ZE1EDP01 Article classification

Carries the Briscoes or Rebel Sports internal article classification code for this item.

Tag	Description	Min/Max	Notes
<ZE1EDP01 SEGMENT = "1">	Start of the Article Classification section		
<ATTYP>	Article qualifier	1/2	Article type qualifier:
		00	The item is a single article
		01	The item is a generic article
		02	The item is a variant article
</ZE1EDP01>	End Article		End Article Classification section

	Classification section		
--	---------------------------	--	--

E1EDP20 Document Item Date and Quantity Required Segment

Carries the required delivery date for a particular quantity ordered. This group repeats for each separate delivery schedule. Mandatory

Tag	Description	Min/ Max	Notes
<E1EDP20 SEGMENT = "1">	Start of the IDOCs Document Item Date group.		Start of the IDOCs Document Item Date group.
<WMENG>	Quantity required	1/15	Quantity to be delivered by the date specified. There is only one delivery date for every line item, hence the full quantity is reflected here. Formatted to three decimal places.
<AMENG>	Original line quantity required	1/10	This is the quantity notified to the vendor at the time of the last transmission. If this was an Order Change message, this would be the last quantity ordered. Formatted to three decimal places.
<EDATU>	Date	8/8	Required delivery date for this schedule in the format YYYYMMDD. This date may be different from the date originally in the Purchase Order or in previous Purchase Order Change messages.
</E1EDP20 >	End of the IDOCs Document Item Date group.		End of the IDOCs Document Item Date group.

E1EDPA1 Item Location Information Segment

Specifies where an individual line item is to be delivered to. Mandatory for multi-store orders.

Tag	Description	Min/ Max	Notes
<E1EDPA1 SEGMENT = "1">	Start of the IDOCs Document item General Data group.		
<PARVW>	Qualifier	3/3	Identifies what the location details below represent.
			WE Deliver-to information.
<LIFNR>	Identification code.	1/17	Deliver-to location identification code. This is the Rebel Sports or Briscoes Store identification code.
<NAME1>	Location name	1/35	Deliver-to store name
<STRAS>	Street and house number 1	1/35	Street and house number 1
<STRS2>	Street and house number 2	1/35	Street and house number 2 – not used.
<ORT01>	City name	1/35	City Name
<LAND1>	Country name	1/3	Country name key. This is usually an ISO country code. Always NZ for Rebel Sports or Briscoes.
<TELF1>	Telephone number	1/25	Telephone number. This is usually the contact phone number of the first contact person of this vendor or party. Optional.
<TELFX>	Fax number	1/25	Fax number. This is usually the contact phone number of the first contact person of this trading partner or party. Optional.
<SPRAS>	Language Key	1	Language used in this purchase order. Always 'E' for English.
<ORT02>	Suburb name	1/35	Suburb, district or county name.
<REGIO>	Region code	1/3	Briscoes or Rebel Sports region code.
</E1EDPA1>	End of the IDOCs Document item General Data group.		End of the IDOCs Document item General Data group.

E1EDP19 Document Item Object Identification Segment

Carries a description or identification code of the item being ordered. Mandatory

Tag	Description	Min/ Max	Notes	
<E1EDP19 SEGMENT = "1">	Start of the IDOCS Document item General Data group.		Start of the IDOCS Document item General Data group.	
<QUALF>	Qualifier	3/3	Item type qualifier:	
			001	Briscoe's or Rebel Sports own product item code.
			002	The suppliers or vendors own product identification code.
			003	Global Trader Identification Number , also known as a GTIN. This is the suppliers or vendors product barcode. It must be a GS1-assigned and registered number.
<IDTNR>	Identification code.	1/35	Item identification code. If this data is not required, as in the segment with just the alternative item description, this segment can be omitted	
<KTEXT>	Item description	1/50	Description of the item, the qualifier is 001, this is the article's free-form description as it appears in SAP.	
</E1EDP19>	End of the IDOCS Document item General Data group.		End of the IDOCS Document item General Data group.	
</E1EDP01>	End of group		End of the current purchase order change line	

E1EDS01 Document Summary Segment

Carries the order totals. Mandatory

Tag	Description	Min/ Max	Notes	
<E1EDS01 SEGMENT = "1">	Start of the IDOCs Summary group.			
<SUMID>	Qualifier	1/3	Summary qualifier:	
			002	Order total net
<SUMME>	Net Order total	1/18	Net order total. Note that in an order change message, this is the total of the lines that appear in this message. It is not the actual order total for the purchase order.	
<SUNIT>	Currency code	1/3	ISO currency code. Always NZD	
</E1EDS01>	End of group
